

Assignment 1

Course Code (Name) : BM402 (Management Information System)

Instructions:

- This assignment need not be submitted but will be taken up for discussion in the class
 - Students who do not complete this assignment will not be allowed to take part in the discussion
-

The Chief Co-ordinator of the 2008 edition of sanMilan has asked the Web / IT support team to automate the Registration Process of Participants for the event for which an Information System (IS) is being created. The Chief Co-ordinator wants that he should be able to access any information he wants about the participants, the places where they are being accommodated, the events they are participating in and prizes won.

As part of the IS, design the database. Implement the database in MS – Access.

- ✓ Take a bag with you whenever you go shopping to the market. That way, you avoid bringing polybags which ultimately finds its way to the waste basket. These are not bio-degradable and harm the environment.
 - ✓ Take the print out of this assignment in a paper which is already used on one side. This can help save paper and associated costs. In fact, make it a habit to always use papers to the optimum. Even envelopes just thrown away can be used to do rough work.
 - ✓ Check to see that all electrical appliances are switched off when they are not being used. Switch to CFLs. You can do a lot to save power.
 - ✓ Make it fashionable to be environmentally conscious and aware. You can make a real difference to the only place we have to live called EARTH.
-
